

# ABUS festoon power supply system

for track lengths up to 30 m

- The riser cable from the mains switch and cabling from the mains switch to the terminal box, including accessories, are not included in the scope of supply.

The voltage drop must be taken into consideration for the design of the festoon system. The festoon system is prefabricated, i.e. supplied with the flat cable on the cable carriers, current collector carrier and end clamp.

| Fixed components   | Length-dependent components  |
|--|--|
| Transitional terminal box, end clamp, current collector carrier, mains switch, trolley current collector | Flat cable carriers, flat cable, rails, rail supports, rail connectors, mounting consoles, clamping brackets |
